Glowniggies are desperate. These riots aren't going the way they hoped, common people don't dislike police as much as they dislike blacks or punk rioters, and people like (You) aren't biting the hook like they wanted. The ideal scenario was a full on race war in the cities, mass casualties, white versus black, where the federales could rush in and stop the violence, thus "saving the day"... which would of course be a Democrat-led affair, giving them a positive talking point in November. Plus a military police force under control of a Democrat president isn't something to sneeze at (in that regard they won.)

But it's not going as well as they wanted. Within the next week, they are going to try and pin the violence on (who else?) you guys, by herding histrionic wannabe leader e-celebs into a new faction, kind of like how they fabricated "the alt-right" for 2016. The dumber posts you guys have made will be analyzed, categorized, repeated and packed into this new group, who will insist on a more aggressive front when it comes to rioting. But like the riots themselves, it's just posturing. They don't want to throw their own employees into the fire, they want YOU to bite and die on their behalf.

If you start seeing mass posts on /pol/ to take action, go fight BLM, respond violently to an atrocity, imitate Brent Tarrant, etc. it is absolutely a federal project to try and make this website go insane. It kills two birds with one stone: you guys die or lose credibility, costing Donald Trump his free PR team, and it gives the Democrats something to cry crocodile tears over. Don't fall for it. If you think you've seen federal bait now, you have no idea how bad it's going to get in the coming months.

The problem is nothing needs to be done by /pol/, if they want neonazis fucking around and getting themselves on the news they can fabricate it. This place is just a thorn in their side sometimes.

Nice digletts and probably true. I sure won't be venturing into liberal cities to rescue dummies lol. I defend my property and my family. That's our trump card. They want violence, they have to be the ones to invade. Nobody can take rioters side if they're actively coming to suburbs and bringing violence to peaceful neighborhoods.

They really overplayed their hand imo

We are law abiding men and we will not interrupt the left eating itself alive. In fact, never interrupt the enemy when it's in the midst of making a colossal mistake. We do enjoy, however, watching the left's little pets biting the hand that feeds them and before this is all over even doxy fucking liberals don't want niggers burling down their homes and businesses. Thank you for handing donald a 2020 victory on a silver platter. Pass the popcorn, this is only going to get better as the blacks turn against the left's goon squad and cocksuckers , their beloved antifa. They might even be ass raping them in the alleys by the weekend which, for antifa, will be like getting a free vacation to Club Med.
